# Cotton Field to Fabric

Managing for quality through the production chain.

CSIRO Materials Science & Engineering  
Colac Rd, Belmont, Victoria.

**21<sup>st</sup> 22<sup>nd</sup> & 23<sup>rd</sup> July 2009**

This training course is designed to give participants an overview of the entire cotton pipeline from farm to predicting fabric performance.

Designed for people who are involved in any part of the Cotton Industry from grower to technologist.

It aims to give a better understanding of how segments of the industry operate and how each relates to one another.

## **Book Early**

The course has limited vacancies due to the hands-on nature of proceedings.

Applications close when all places are filled.
